# Summer is Here!

MSI sponsored a hole at the annual MIAA Golf Outing last week, and it was so good to see many of you! Not only did we have a blast with everyone at our hole's photo op spot, but Friday turned out to be perfect golfing weather! We look forward to participating again next year!

Most doctors have returned to scheduling IMEs and Records Reviews with safety precautions in place. We at MSI are still working remotely and are available and ready to assist you. Our team has continued providing excellent service the past few months and can address any urgent needs you may have; you can expect the same level of exceptional service you have come to know and trust!

Please reach out to us if there is anything we can do to help keep your cases on track or if you have any questions!

## MSI's Rescue Pets: Ninja!

This month we are featuring 4-year-old Ninja; she is part of our Doctor Recruitment Specialist Carolyn's family.

MSI continues to highlight our team member's rescue pets! Most of our staff has a furry family member adopted through a local shelter, and we are highlighting one of them and the organization that brought them home to us each issue, to raise awareness and support for these organizations. They are still providing love and exceptional care during the current circumstances, so please check them out if you are considering adding a 4 legged friend to your family!

Ninja was adopted from the Milwaukee Area Domestic Animal Control Commission in 2018 and was estimated to be two years old at the time. She had been surrendered to MADACC because her original owner was no longer able to care for her. At her new home, she hid in the basement for the first week and only came out silently and cautiously at night, thus earning her the name "Ninja". It did not take Ninja long to establish control of her new territory and human servants (a.k.a. occupants), and she is now very vocal, patrolling the house at all hours. She has proven her assassin skills by dispatching several mice and numerous bugs. To find out more about this shelter, check out their adoptables, or to sign up for their e-newsletter, please visit <https://madacc.org/>.

## Your MSI Team

Twenty-nine years ago, Deb opened MSI after years of managing another IME company. Her goal was to provide IME service users with a higher-level of customer service and more than one vendor choice. She accomplished this by offering larger doctor selections and the ability to quickly fulfill a hard to find doctor or specialty need. She also envisioned a company that provided higher quality, credible evaluation reports and actively sought out like minded doctors. Making MSI a great workplace is important to Deb as it allows us to acquire and retain the highest quality team members in the industry. She views the opportunity to work alongside MSI's employees and serving our clients as a great privilege. When not working, Deb enjoys traveling or relaxing with a good book. Although she is proud of MSI, she is most proud of being a parent to her daughter. She also has a strong belief in giving back to the community, which is why she likes to sponsor local business whenever possible and is also a supporter of The Milwaukee Rescue Mission and the Salvation Army.

# Doctor Highlight

## Shekar Kurpad, MD

Board Certified American Board of Neurological Surgery

Dr. Kurpad is a neurosurgeon in active practice at the Medical College of Wisconsin where he specializes in the treatment of spinal and cranial disorders with an emphasis in tumors of the spine and minimally invasive methods for the treatment of spinal disorders. He is available for IMEs in the Milwaukee area.

Dr. Kurpad earned his MD at Bangalore Medical College in India and his PhD at Duke University. He completed several fellowships and was a recipient of the prestigious Van Wagenen fellowship from the American Association of Neurological Surgeons. He has served as a professor at Marquette University and the Medical College of Wisconsin.

Dr. Kurpad is a member of the Executive Committee of the Congress of Neurological Surgeons (CNS) and the Joint AANS/CNS Section on Neurotrauma and Critical Care. He serves as the Chair of the International Division of the CNS and has been a member of the Executive Committee since 2011. He is board certified with the American Board of Neurological Surgery and has been named in the Best Doctors in America since 2007.

Dr. Kurpad conducts Record Reviews and IMEs for MSI and generally performs IMEs on Friday evenings to accommodate his practice.
