March 2021 | Issue 11

### Upcoming Industry Events:

#### MIAA Golf Outing

June 18, 2021  
Milwaukee Area

Save the date for the annual Milwaukee Insurance Adjusters Association golf outing! More information to follow as it becomes available. Hope to see you there!

#### Wisconsin Worker's Compensation Forum

October 6, 2021  
Brookfield WI

Mark your calendars for the 2021 Wisconsin Worker's Compensation Forum in October! Come visit Medical Systems at the brand new Brookfield Conference Center in Brookfield, WI and join us for another great year of education and networking!

Return to in-person MSI events is anticipated this fall. We cannot wait to see you all in person again!

#### Around Milwaukee:

*Pictured above is a four leaf clover our team member Amber found at 7 Bridges Trail in Milwaukee which she shared for St. Patrick's Day. It brought us to the question of how long does a four leaf clover bring you good luck?*

## MSI Featured Charity

We received such wonderful responses to our Seasons of Giving event, we were inspired to continue providing additional support to our local community throughout 2021. Each quarter we will be donating \$1000 to a group of charities that are near and dear to the hearts of our clients and our team! We will also be highlighting these charities in our newsletters in order to bring more awareness to the causes they support!

This newsletter we are highlighting [Keep Greater Milwaukee Beautiful, Inc. \(KGMB\)](http://www.kgmb.org)

KGMB was established in 1983, and they promote sustainability through clean, healthy, and beautiful communities for generations to come, with the Vision that their organization will have attained success when people are active stewards for sustainable community activities.

The Goal of KGMB is to help communities improve their economic, environmental, and social well-being, and they look to partner with communities to promote waste reduction, reuse, and recycling, renewable and efficient energy use, neighborhood cleanup and beautification, and resource conservation.

KGMB provides numerous educational programs surrounding sustainability and conservation subjects such as urban agriculture and wellness, natural resources, water, and environmental engineering. KGMB aligns itself with values that help to promote their Vision, and these include accountability, innovation, leadership, diversity, and education.

Please check out this awesome organization's website to learn more!

## Catching up with Your MSI Team

### Amber, Medical Records Specialist

While staying at home more than is usual for her active pace during the past year, Amber found time to perfect the classic sugar cookie. She practiced her baking skills until she found the exact balance of texture and flavor. Her final recipe yields superior sugar cookies with a soft, buttery inside and a light crispness on the edges, resulting in a satisfying crunch with every sugary bite\*. Amber's baking assistant, a.k.a. her 3 year old daughter, has also perfected decorating, frosting, and sneaking bites from every batch.

Amber also uses her precision approach to details at Medical Systems where she reviews cases and cover letters and ensures all files are in order and on time to the doctors, resulting in an efficient process and a timely report.

\*We might just be able to convince Amber to share her yummy recipe; contact [Keri](#) if you are interested in the tweaks Amber has perfected to produce the tastiest sugar cookies!

# Doctor Highlight

## James Foley, MD

**Board Certified American Board of Orthopaedic Surgery, Subspecialty Certificate in Surgery of the Hand**
